

HIMANSHU RAMESH RANE

Master Student AI & Data Analytics

Email: himanshu.rane005@gmail.com | Phone: +49 155 10826125

Location: Neu-Ulm, Germany (willing to relocate to Melle) | LinkedIn: linkedin.com/in/himanshu-rane

Nationality: Indian | Visa: Valid German student residence permit | Available: Spring 2026 | Full-time

PROFESSIONAL SUMMARY

Master's student in AI and Data Analytics at Hochschule Neu-Ulm (HNU), Germany, applying for the internship in AI in Sales with the goal of continuing into a thesis from October 2026. Experienced in developing AI agents and automated information retrieval systems using Python, LangChain, ChromaDB, and REST APIs. Built a production AI system that automatically collects, structures, and retrieves information from large document corpora — reducing response time by 83 percent. Skilled in identifying stakeholders and use cases, building prototypes with real business impact, and working independently in a structured, solution-oriented way.

TECHNICAL SKILLS

Python (3 plus years), AI Agents, Agentic AI, RAG (Retrieval-Augmented Generation), LangChain, ChromaDB, Prompt Engineering, Automated Information Retrieval, REST APIs, FastAPI, Web Data Collection, Data Structuring, SQL, pandas, Generative AI, LLM (Large Language Models), NLP (Natural Language Processing), Power BI, Data Visualization, Streamlit, Git, Jira, Microsoft 365, Agile, Scrum

PROJECTS

Project Lead — AI Research Agent and Automated Retrieval System (Meter Mate)

09/2024 - 12/2024

Wilken Software Group and Hochschule Neu-Ulm | Germany

- Developed an automated AI research system using Python, LangChain, and ChromaDB that systematically collects, structures, and retrieves information from large operational document corpora — directly analogous to automated project and stakeholder research.
- Built an AI agent pipeline using LLaMA 3 and RAG architecture to automatically identify relevant information, extract key data points, and structure outputs for end-user consumption — reducing manual research time from 5 minutes to 30 seconds per query (83 percent improvement).
- Identified relevant use cases and stakeholders through close collaboration with the client, designing the system to surface the right contacts and information automatically rather than requiring manual search.
- Built a working prototype in Python and Streamlit, iterated based on user feedback, and delivered a production-ready system with documentation — from concept to rollout.
- Led a 5-person cross-functional team, presented findings and prototype to management, and contributed directly to the client's digitalization and automation strategy.

Research Author — Automated Classification System

08/2023 - 04/2024

Jayawantrao Sawant College of Engineering | Pune, India

- Co-authored peer-reviewed publication on automated classification using machine learning on 10,000 or more data points, achieving 92 percent accuracy — end-to-end system from data collection to structured output.

WORK EXPERIENCE

Business Analyst Intern — Automation and Data Analysis

02/2024 - 07/2024

BitFlyer Technologies | Pune, India

- Built automated data collection and processing pipelines using Python and REST APIs, eliminating 8 or more hours of manual research and reporting work per week.

- Analysed large datasets of 47,000 or more records to identify patterns and actionable insights, structuring findings into clear reports and dashboards for management decision-making.
- Developed Power BI dashboards that enabled Sales and Operations teams to independently track KPIs and identify new opportunities — reducing reporting cycle from 5 hours to 2 hours (60 percent improvement).
- Worked directly with management on process improvement initiatives, contributing analysis and recommendations that shaped quarterly sales strategy.

EDUCATION

Master of Science in Artificial Intelligence and Data Analytics

10/2024 - Present

Hochschule Neu-Ulm (HNU) | Germany

Coursework: Big Data and AI, Deep Learning, Advanced NLP, Machine Learning, Data Platform Architectures, Digital Process Management, Business Intelligence

Bachelor of Engineering in Electronics and Telecommunication Engineering

08/2020 - 06/2024

Jayawantrao Sawant College of Engineering | Pune, India

GPA: 1.6 on the German grading scale

CERTIFICATIONS

IBM Python for Data Science, AI and Development — Coursera, 2025

IBM Data Visualization and Dashboards with Excel and Cognos — Coursera, 2025

Excel Essentials for Data Analytics — Coursera, 2025

Deloitte Australia Data Analytics Job Simulation — Forage, 2025

Goethe-Zertifikat A1: Start Deutsch 1 — Goethe-Institut, 2025

LANGUAGES

English: C1 — Professional Working Proficiency (CEFR)

German: A2 (CEFR) — Goethe-Zertifikat A1 certified 2025, actively improving toward B1
